

We are NOW taking registrations for our free **STEM InsideOut mid-term** sessions!

These can be accessed **in-person (Cork, Dublin & Mayo)** or **online** from **November 1st to November 4th**.

For this special week our company host, Riot Games, will bring participants through a cyber tech project challenge. **Led by Aanchal Mittal, a Cybersecurity leader** at Riot, and an impressive Women-in-STEM! You'll meet members of her team, learn skills used in their work environments, and take a shot at solving some real-world problems they deal with everyday.

**Tues Nov 1 12-2pm** Intro to AI & Machine Learning + Session Challenge

**Wed Nov 2 12-2pm** Working with mentors on the "Self-Driving Car" Challenge

**Thurs Nov 3 12-2pm** Working with mentors on the "Self-Driving Car" Challenge

On the **Friday, November 4th**, there will be a trip to **Riot Games HQ in Dublin!** Transport for the field trip will be provided to those attending in-person in Cork, Dublin, and Mayo as well as those joining online from Clare, Galway and Limerick.

**Complete the form** on the link here. Details below.

<https://teen-turn.com/stem-inside-midterm/>

We will email you the in-person session OR dial in details, so you will know how to access everything beforehand.

Your cyber sleuth skills start here! (No graphs, this time, promise!)
